PSU Field Days is our chance to show you the results of research we hope will assist you with your turfgrass management decisions. This year we will be showing studies on:

**Disease control for greens, fairways, and lawns
Weed control for golf turf and lawns
Insect monitoring demo
Fertilizer/nutrition research
Acidification of tank mix safety demo
Acidification of root zone mixes with sulfur
Summer stress management products
Environmental models for disease prediction
Turfgrass variety evaluations
Greens-type *Poa annua* research
Compost soil amendment studies
Plant growth regulator tests
Tall fescue wear tolerance for athletic fields
Bermudagrass demonstration
Synthetic turf research/demo
Fertilizer BMPs for home lawns**

Please join us and see the results of our field research. We look forward to sharing the latest technology with you and hearing your input! Above all, we thank you for your continued support.
